Art Unit: 3753

This application contains claims directed to the following patentably distinct species:

first species described on page 10, line 15 – page 25, line 10,  
second species described on page 25, line 11 – page 29, line 10,  
third species described on page 29, line 11 – page 33, line 24,  
fourth species described on page 33, line 25 – page 35, line 15,  
fifth species described on page 35, line 16 – page 38, line 14,  
sixth species described on page 38, line 15 – page 53, line 9,  
seventh species described on page 53, line 10 – page 54, line 19 and  
an in-determinant number of additional species described on page 54, line 20 –  
page 55, line 9.

The species are independent or distinct because they are mutually exclusive and have different areas of search.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claims appear to be generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations

Art Unit: 3753

of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species.

MPEP § 809.02(a).
